NHS Scoring Guidance

Recent guidance issued by NHS England has confirmed the move away from the 'Net Promoter' scoring methodology to a simpler 'Percentage Recommended' and 'Percentage Not Recommended' method.

The percentage measures are calculated as follows:

$$\text{Recommended (\%)} = \frac{\text{extremely likely} + \text{likely}}{\text{extremely likely} + \text{likely} + \text{neither} + \text{unlikely} + \text{extremely unlikely} + \text{don't know}} \times 100$$
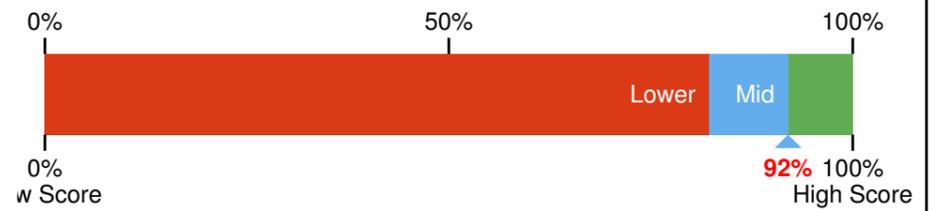

$$\text{Not Recommended (\%)} = \frac{\text{extremely unlikely} + \text{unlikely}}{\text{extremely likely} + \text{likely} + \text{neither} + \text{unlikely} + \text{extremely unlikely} + \text{don't know}} \times 100$$

For further information about the selection of the scoring method please see the NHS FFT Review published in June 2014 here:

✓ I love my GP, dr Ahmed. She is genuinely caring and helpful.

✓ *I have chosen this answer beacouse your reception services and doctor nicely litsen to her patient.*

✓ I find everyone at the surgery friendly and professional and I came there everyday to have my wound dressed after surgery two years ago and the Nurse was amazing best regards Martin

✓ *Good doctor*

✓ Great staff and I hardly ever wait around to be seen

✓ *Excellent attention from the nurse.*

✓ Great service and everyone is always very helpful

✓ *The doctors show they care they want to get to the bottom of the problem. And find the best solution*

✓ Because of good sevice and veru quick redpond and dr jaman he is a accellent for pasient.he's vehave activity is very good.

✓ *Good caring treatment!*

Not Recommended

✓ After an interview with my elderly fathers social worker when she asked the probems and conerns about his memory and cognitive problems. Which she said were in privacy and confidence. The entire transcript of that conversation was sent to my 80 yr old father by your surgery, damaging my relationship with my father and impeding my ability to take care of him. I thk this was breaking my confidence, and upseting my father, showed an automated uncaring attitude.
